

DESCRIPTION, OBJECTIVES AND OPERATIONS

Description

Module 2: Dynamic Programs: Effective Structure and Transitions is a 3 hour interactive workshop in a series of workshops created to provide the teaching team with the opportunity to work in collaboration on building capacity. This workshop will reveal the fundamentals of structure and inspire the teaching team to take a look at how organize all aspects of your child care environment including transitions. You will have the opportunity to assess how effectively your program works and to develop a sustainable action plan that will help you build in predictable routines and efficient transitions. As a team, you will learn how to ensure consistent expectations while accommodating a wide range of needs within your group. Strategies will be provided to help plan for skill development within your daily routine and what to do when unexpected changes occur.

You will take away a kit full of practical tools which includes checklists, tips and strategies to use to improve your program by creating effective structure and efficient transitions.

Objectives

- 1) To inspire participants to engage in the process of change in order to improve their structure and transitions.
- 2) To offer participants practical applications of appropriate ways to plan and implement changes to their structure and transitions.

Operations

- 1) Outline the potential impact of structure and transitions on children's behaviour and learning.
- 2) Outline strategies for the planning and implementation of a sustainable action plan that will create effective structure and transitions.
